

ATTENTION

Dear Boat Owner,

You have been advised that Belton Lake is infested with zebra mussels. With the closure of Pier 36 Marina, we want to work with you to ensure all zebra mussels have been removed and all water is drained before launching your boat into another body of water. We have identified three locations in the Belton area that are experienced with providing boat decontamination services:

| | |
|---|----------------|
| Anything Fiberglass, 5250 FM 439, Belton, TX 76513 | (254) 669-1796 |
| Marine Outlet, 4410 S. General Bruce Dr., Temple, TX | (254) 773-9931 |
| Texas Boat World, 303 W Central Texas Expy., Harker Heights, TX | (254) 669-9151 |

We will also be holding two complimentary boat inspection events to help ensure you are in compliance and not transporting hidden zebra mussels. We recommend having your boat inspected after decontamination.

August 22 and September 12, 2015

8 am until noon (or until the last boat in line is inspected)

**Bell County Expo Center parking lot
301 W Loop 121, Belton, TX 76513**

(Enter from the I-35 service road at the marquee sign.)

For more information, contact TPWD at (800) 792-4263.
